NOTA:

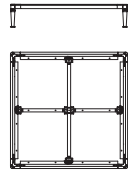

il legno di rovere, di afrormosia e la pietra sono materiali naturali che risaltano nelle loro tipiche venature originali, a volte anche non uniformi. Le imperfezioni della materia prima non devono essere considerate un difetto, bensì un pregio.

NOTE:

the oak and afrormosia wood and the stone are natural materials, whose original veining, sometimes even not uniform, stand out. The imperfections of the raw material should not be considered a defect, but rather a quality of the material.
